

## Boulder Valley School District - Jennifer Borum

Jennifer Borum has been working on the project since the fall of 2007. She is a licensed teacher with Boulder Valley School District and has been teaching elementary science and developing science education curriculum for more than 20 years. In addition to teaching in traditional classrooms, Jennifer has also developed science programs at Sea World, the Denver Zoo, and the Denver Museum of Nature and Science. She has worked with the City of Boulder Open Space Department as the Education and Outreach Coordinator and was the Interpretive Naturalist with Jefferson County Open Space where she helped design the Lookout Mountain Nature Center.

Jennifer works as the Project Liaison, recruiting schools, scheduling tutoring sessions and collecting data for the project. She also manages the staff of terrific tutors.

In her spare time, Jennifer likes to read, be outside skiing, swimming, camping and hiking with her husband and their son, and she sings with a local community choir.
